

## **CHEMIST 1**

How would you like to become part of a trendsetting, versatile, international and ever-exciting consumer products company? Conair Corporation, a leading manufacturer of retail and professional hair care products, has a Chemist 1 position available in our Research & Development Department.

We are seeking an entry level candidate with either a B.S. in Chemistry, Biology or related science and some experience in a cosmetic laboratory and computer skills including knowledge of Microsoft Office and ability to learn a new database.

Responsibilities will include conducting formulation experiments and raw material testing results, working with the salon in evaluating products, communicating with raw material suppliers to gain new information, maintain GMP in a laboratory setting and evaluating packaging and shelf stability.

We offer a competitive salary and an excellent benefits package including medical and dental, profit sharing, 401(k), tuition reimbursement, product discounts and fitness center, as well as a beautiful location near Long Island Sound.

If interested and qualified, please forward your resume and salary requirements to:
