

Color Formulator

My Delight Cosmetics (www.mydelightonline.com) makes natural vegan cosmetics. We have an immediate need for someone to help reformulate our colors for our lip care products. We are looking for someone who will work hands on with iron oxides, micas, etc. to match our old colors and create new colors. Since we make natural cosmetics, all of our products begin with food grade materials and you will be able to work in your home, in your personal lab, or at your current location. We will provide all raw materials.

This project is urgent and we will need to have this completed within 30 days. Position involves a substantial amount of formulation work and preparing the data/ documentation.

We really need someone who knows how to create custom colors from raw materials and can work independently, quickly and efficiently.

Qualifications:

- B.S. Degree in Chemistry, Biochemistry, Chemical Engineering, Material Sciences or related fields.
- 2+ years experience in an OTC cosmetic creation, including hands-on formulation.
- Familiarity with USP procedures and OTC cosmetic requirements.
- Knowledge of color theory.

Email cover letter, resume and salary requirements (per hour or per project) to: mydelight@mydelightonline.com. Applications without salary requirements will not be reviewed.
